- I would probably make it a little less imagery heavy as sometimes it can distract from the overall message of the ad
- I might include less effects as it sometimes felt overdone
- I might try to also include less vertical shots as those feel weird
- Maybe focus the ad onto less activities
- Some people might lose interest if they don't truly know what this program is
- I would have included more sports that aren't very typical such as cliff diving or Formula 1
- It feel like your not getting much off of what your trying to accomplish
